

COAL COMPANIES

LIKE MILLENNIUM WOULD

BENEFIT.

LONGVIEW WOULD PAY.

PHOTO: PAUL ANDERSON

Millennium Bulk Terminals wants to bring dirty coal through our communities on 1.5-mile long, open-top coal trains, polluting our air and water. But coal export markets are plummeting as more countries move towards clean energy solutions. We can't trust Millennium to be around long enough to clean up its mess, leaving our community to pay the price.

The risks aren't worth it. We can stop this bad coal project and protect our health, safety and quality of life. Join thousands of Northwest families standing together at StopCoalTrains.org.
